

It is recommended that all Gangways and Accommodation ladders should meet **IMO 1331**

To meet this they should be inspected **annually** and load tested **5-yearly**

- Accommodation ladders to ISO 5488 Ships and marine technology
- Gangways for seagoing vessels to ISO 7061 Ships and marine technology

As the **OEM** for over 300,000m of gangways we can support the compliance & safe operation of your gangways & ladders

- Service History, Certificates and Drawing management
- Service Agreement option
- Diary booking system with reminder service

In addition to our current support services, we have introduced

REMOTE SURVEYS for your convenience via a trained OEM partner on a video call with your on-site personnel
